AMENITIES

20 Branch Road

We construct 20 Feet Branch Road based on this mechanism. Macadam is a type of road construction, pioneered by Scottish engineer John Loudon McAdam around 1820, in which single-sized crushed stone layers of small angular stones are placed in shallow lifts and compacted thoroughly. A binding layer of stone dust (crushed stone from the original material) may form; it may also, after rolling, be covered with a binder to keep dust and stones together. The method simplified what had been considered state of the art at that point.

Boundary Wall

Legal boundaries are usually established by a professional surveyor using a transit and or modern Global Positioning System (GPS) technology. The coordinates of the property line are often described on a drawing called a "plot plan" or "plot" by indicating the length of the boundary along a specific compass bearing in relation to a verifiable "point of beginning". The metes and bounds method is also used to provide a legal description of a property. We provides outer boundaries our society.

Water Supply for Gardening

We also provides water supply by 10 bhp bore well and pipe lining in each plots and park separately.

Street Lights

We provides LED street lights have a lens on the LED panel, which is designed to cast its light in a rectangular pattern, an advantage compared to traditional street lights, which typically have a reflector on the back side of a high-pressure sodium lamp. In this case, much of the luminance of the light is lost and produces light pollution in the air and surrounding environment.

Security

Round-the-clock. Use the adjective round-the-clock to mean always, at any time of day. A company that uses round-the-clock surveillance is keeping an eye on things 24 hours a day.

Entry And Exit Gate with Guard Room

For safety reason, we do not allow different vehicles from the same platoon to exit through the same gate. This requires many gates per exit.

Eco-Friendly Park

Parks do more than beautify and enhance a community. They're also vital for preserving and protecting natural areas and supporting a healthy ecosystem. It also helps strengthen the environment by bolstering the area's native flora and fauna.

Walking Track

A Walking Track (also pedestrian way, walking trail, nature trail) is a type of thoroughfare that is intended for use only by pedestrians and not other forms of traffic such as motorized vehicles, cycles, and horses. The walking paths also a great way to ease into a more active lifestyle. Incorporate a trail walk into your daily routine and discover for yourself.

Build Your Legacy

*Creating the perfect
ambiance for your home.*

The You Philosophy

All our endeavors revolve around just one entity—our customers. It is their needs, demands and desires that drive us and this continues to remain at the center of our universe. We call this “The You Philosophy”.

Vision

Our Vision is to build a future wherein Tharr Infra is a Household name and is known for creating unique landmarks and superior community living by maintaining highest standards of quality to ensure customer delight.

Quality

Since inception, we believed if there is one mantra for success, it is ‘quality’. Add to this, value uncompromising business ethos, focused customer centric approach, robust engineering, in-house Research and Development and transparency in all spheres of conducting business and you get is the ‘most preferred’ real estate brand in both residential and commercial segments. From planning to materials, construction skills to customer relations, we strive for perfection in all that we do.

Under Promise Over Deliver

A philosophy of continuous improvement is practiced by Tharr Infra Group to ensure that both the current and the future demands of our clients are satisfied. The secret of our success can be attributed to a combination of total quality management and the seven Cs.

Which are adhered to—comprehensives, capable, competent, consistent, credible, cost effective and confidence. We at the Tharr Infra Group have always believed in the phrase ‘under promise over deliver’ and we always practice this in our work. At Tharr Infra Group we foster a climate of innovation, professionalism and teamwork. Our people are our driving force and through them we see ourselves at the epicenter of innovation where cutting edge technologies and in-vogue modern amenities grow from ideas to implementation. Our people enjoy the freedom to move beyond static tasks and rigid responsibilities to flexible ones. This enables them to explore their talents to the maximum, grow latent abilities, learn and share new skills and discover themselves in a more fulfilling manner.
